EBU5608 - PRODUCT DEVELOPMENT & MANAGEMENT - COURSEWORK - 2025

Last date of Submission: **Monday 28th April 2025** by 23:55 Beijing time (electronic submission via QMPlus, one submission per group, late submission will not be marked). This coursework is worth 30% of the overall mark for the EBU5608 module.

SING UP INTO A GROUP

a) Create one coursework group of **5 members** (all the members should be students of the same major/lecture group) and choose your group leader.

b) Visit the file **EBU5608 Groups 2024** available on QMPlus to select a coursework group number from your major/lecture group.

c) Each student must visit the **EBU5608 Coursework Group Sign-Up sheet** on QMPlus and to register into to his/her group by **Friday 14th March 2025**

INTRODUCTION

For the last 5 years, you are a member of a Product Development team specialised in the development of Teaching and Learning software solutions. The role of your team is to spot gaps in the market and to identify an opportunity for a new **digital** product or service in Teaching and Learning. Your proposed solution should aim one of the followings:

Teaching	Learning	Assessment
To enhance the student engagement	To facilitate online learning	To facilitate students in managing the learning activities, tasks, and assignments
To facilitate teaching using AI	To use GenAI in the labs	To support group coursework
To support active learning	To learn playing an educational game	To facilitate online exams

For further understanding, read the **Teaching – Learning – Assessment Glossary** available on QMPlus.

DETAILS

Your team need to undertake a systemised process that will include **opportunity identification, customer needs identification, concept generation and testing.** The outcome of your work will a report that will be given to your organisation's management board to assist them in making their decision on whether to support your proposed product concept.

OPPORTUNITY IDENTIFICATION - **20 MARKS**

Task 1

Use the Ulrich and Eppinger's **six-steps process to identify at least three (3) product opportunities** for one of the above aims. Explain in detail all steps of process followed, providing evidence of your work for each step. Use the R-W-W framework to select one exceptional product opportunity; give briefly answers to R-W-W questions when it is necessary.

Action: Visit QMPlus to share the exceptional product idea by **Friday 28th of March 2025** at the latest.

Product idea is a short and clear explanation of the proposed technology-based solution, 60-80 words.

Your product idea should be unique and one that has NOT been proposed by another group. Therefore, before sharing, you must first check the product ideas posted by other groups.

IDENTIFICATION OF CUSTOMER NEEDS – **20 MARKS**

Task 2

Use the Ulrich and Eppinger's **five-steps process to identify customer needs** for your product/service idea. Explain in detail all steps of process followed. Choose one appropriate method to gather raw data. Use the appendix to provide clear evidence of data collection and analysis like list of questions, tables, charts, etc. Provide a clear list with the needs statement.

Complete this task by **Friday 11th of April 2025** at the latest.

CONCEPT GENERATION AND TESTING – **25 MARKS**

Task 3

I. Once your customer requirements are ready, use an appropriate approach to **generate your product concept** developing a prototype. Provide clear evidence of your product concept using a prototype e.g. functional prototype, drawings/ sketches, simulation, etc. (**15 marks**)

II. The next stage of **concept testing** should be the culmination point of your report and you should use the Ulrich and Eppinger's **seven-steps process to test** your product concept. (**10 marks**)

Complete this task by **Friday 18th of April 2025** at the latest.

CONCLUSION – **5 MARKS**

Task 4

This should summarise your **findings** and assess the **market potential** of the digital product, including any **shortcomings** that need further development.

ORIGINALITY – **5 MARKS**

5 marks will be awarded for the novelty of your idea, namely for the quality of being **new**, **unique**, and **innovative** product concept.

QUALITY OF THE OVERALL REPORT – **5 MARKS**

All reports should include an introduction, all the main sections mentioned above, conclusions, list of references, coursework meetings logbook. You will also be marked on the quality of your English language skills and proof-reading etc.

MEETINGS LOGBOOK - **5 MARKS**

You are expected to demonstrate good time-management skills, hold meetings regularly and make meaningful discussions, and manage any disputes that may arise in your group. Therefore, your team should have at least one meeting per week from the **21st of March** to **29th of April**. After each meeting, your team should complete the **Coursework Meetings Logbook**, you will find it in the report template.

PARTICIPATION IN THE WORKSHOPS - **5 MARKS**

You are expected to actively participate in the workshop, make meaningful discussions and contribute to the group tasks., Each student should complete the **Workshop Self-Evaluation form** after each workshop.

©Dr N.Paltalidis 2025

POSTER – **10 MARKS**

Prepare an **academic poster** to present your idea for the new product/service concept to the management board; do not present the product development process.

- You are expected to use appropriate techniques (like diagrams, tables, geometric layouts, prototype, etc.)
- The poster should stand on its own, namely if someone read the poster should understand fully the work. All the info should be in English.
- The poster's dimensions should be 110cm x 90cm; a recommended poster template is available on QMPlus. You also can find hundreds references on the web about 'poster presentation', 'academic poster' etc.
- The poster should be 400 – 500 words
- The poster should be a Power Point file
- Have in-text citations and full references using Harvard referencing system.

The best 10 ideas of a product/service will participate in an academic poster showcase event which will take place before the end of the semester.

Visit QMPlus to submit your poster by **Friday 9th of May 2025** at the latest.

FURTHER COMMENTS

- Clear writing comes from clear thinking. Your report should be clear, concise and uncluttered. The report must be no more than **4000 words** (**NOT** including the Cover page, Table of Contents, Summary of Responsibilities, List of References, Coursework Meetings Logbook, Appendix.) and it is acceptable to use figures, diagrams and tables where relevant. 1 mark will be deducted for every 100 words over the word limit until all 5 marks have been deducted.

- Your report **MUST** follow the template provided; you will find it to QMPlus.

- Your report must have **in-text citations** and full **List of References** using Harvard referencing style. You should look for information on the Internet, in newspapers, in books, journals etc. ensuring that you access as many sources of information as you can, but you MUST reference them properly. A document on how to reference correctly using Harvard referencing style can be found on QMPlus.

- Create your OWN work. DO NOT plagiarise! Your proposed product concept and report will be tested thoroughly and if you are found to have plagiarised, you may be awarded a mark of zero.

- Marks are awarded AS A GROUP, namely each group member will receive the same mark.

- You are expected to work effectively as a team, play different roles. You are expected to complete the coursework in a timely fashion – this is a very good preparation for work in industry where you will often be expected to work in teams focusing on a certain project with expected outcomes within stated time-limits.

SUBMISSION GUIDELINES

Remember - one submission per group

a. Your **group Leader** must submit:
   i. Your exceptional **product idea** to QMPlus module's area by **Monday 28th of March 2025** by 23:55 (Beijing time).
   ii. Your **report** (MS Word file) to QMPlus module's area by **Monday 28th April 2025** by 23:55 (Beijing time) with the following name: ***EBU5608_Group XXX_Report.doc***
   iii. Your **poster** as a MS PowerPoint (not PDF) to QMPlus EBU5606 module's area by **Friday 9th of May 2025** by 23:55 (Beijing time) with the following name: ***EBU5608_Group XXX_Poster.ppt***

b. Every **group member** should fill the **Group Process Form** (MS Word file) by **Monday 28th April 2025** by 23:55 (Beijing time). This form will be available to QMPlus module's area on 21st of April 2025.
