EBU4201 Bonus Coursework Marks 2024-25

Definition: "Bonus" Coursework marks are marks you can optionally gain, to improve your overall coursework mark, unless you have already obtained full marks for your coursework. The maximum Bonus mark will be 5% of the coursework component of this module.

How to collect Bonus marks:

There are THREE routes.

1) **Lectures** – your lecturer will ask a "Bonus" question at a random time during the week Monday-Friday. You will be given an exact small window of time, e.g. 5 minutes, to respond on a piece of paper as a closed-book exercise, i.e. with no access to any resources. To gain the bonus marks, you must provide the correct answer, your full name and QM student number, and submit as instructed by the lecturer. This must be done individually and not in groups.

   Your answers will be marked offline and you will see your leaderboard score go up in due course, if you had provided the correct answer within the given time window.

   ***Note 1**: you **must** be present in the class at the time of the Bonus question to gain this mark! Please keep a pen and paper ready.*

   ***Note 2**: make sure you write your name and QM student number accurately and clearly.*

   ***Note 3**: once submitted, it will NOT be possible for you to modify your answer or student details.*

   ***Frequency**: this will be done during a lecture slot, once each Teaching Block (TB).*

   ***Number of bonus points:** 20*

2) **Tutorial** – submit your name on QMPlus **under the correct teaching group for yourself** for any of the "starred" questions from the tutorial slides (see Figure 1). Only one student can apply for one question (per teaching group) and this will be on a first-come-first-serve basis. If you submit your name, you will be invited to present your solution during the tutorial session. You must present your QMUL/BUPT Student ID card if you are presenting.

Figure 1 – where to submit your intention to present a solution during the TB1 tutorial

   ***Note 1**: you must bring your **student ID card** so we can identify you.*

Note 2: *if you submit your name but do not attend the tutorial or do not present, you will NOT be able to retain the mark and you would have taken the opportunity away from another student so please avoid doing this.*

Frequency*: there will be one Tutorial slot during each TB.*

Number of bonus points: *20*

3) **Mini-quizzes on QMPlus** – submit your response to the mini-quizzes as they become available.
Frequency*: there will be one mini-quiz per TB on QMPlus and these will be available for a week once all teaching groups complete a given teaching-block.*

Number of bonus points: *10*

Calculation of final Bonus mark:

- Marks you gain from all 3 routes above will be entered in a ranking system called 'Bonus Mark Leaderboard' (see Figure 2) on QMPlus.

Figure 2 – Bonus Mark Leaderboard

- The more you engage via the above activities, the higher your level and ranking will be.
- You can view your ranking anytime by going to the relevant block on the right-hand side of the EBU4201 QMPlus page.
- Your final Bonus mark will depend on your ranking at the end of the semester and will be in the range of 1% - 5%.
- Provided your Leaderboard score is not zero (i.e., you have engaged in at least one of the activities listed above), a mark between 1% - 5% will be added to your coursework mark (capped at 100%).
